## SOFTWARE ENGINEER

Experienced Front-End Developer with 1+ years of React Native experience, specializing in mobile app development for iOS and Android. Proficient in building role-based systems, chat systems, data visualization and API optimizations. Skilled in working with databases like Firebase and Supabase to ensure efficient data management and real-time synchronization. Expertise in leveraging the latest version of React Native, including integrating native modules using Swift and Java for seamless functionality. Known for strong problem-solving abilities, a commitment to high-quality, user-focused designs, and delivering robust, high-performance applications.

## SKILLS

Redux ToolKit PushNotifications Typescript Socket.io Firebase Social Auth  
Auth Expo App Store Play Store MongoDB MySQL Nodejs Supabase

## PROFESSIONAL EXPERIENCE

### *React Native Developer*

#### **Appshipe | June 2025 - Present**

- Contributed to ongoing projects WSO and BuyPe, both live on the Play Store and App Store.
- Collaborated with cross-functional teams to build and enhance core features using React Native.

### *React Native Developer*

#### **Stackup Solutions | April 2024 - May 2025**

- Developed Cabo Airport Shuttle, Puppeteer, Beemster, SplitExpense etc and live on playstore/appstore
- React Native, Redux ToolKit, TypeScript

### *React Developer*

#### **Switch to Solutions | Sep 2023 - Dec 2023**

- Assisted in designing and developing responsive websites, ensuring compatibility across devices and browsers
- React, Next.js, Nodejs, TypeScript

## PROJECTS

### ***Cabo Airport Shuttle***

- Cabo Airport Shuttle is a mobile app that optimizes airport transport by streamlining booking, coordination, and vehicle management.user-friendly application.
- Integrated new screens and notifications, audio call, voice recording functionality along with other various features.

#### **Technologies used:**

React Native Cli, One signal Notifications, React Native audio, Redux ToolKit.

### ***SplitExpense***

- SplitWise is for managing and splitting shared expenses, making it ideal for group trips, household bills, and outings.
- Integrated new screens and notifications, firebase along with other various features

#### **Technologies used:**

React Native, Firebase messaging, Redux ToolKit, Restful APIs.
